

IT TAKES AN OUTPOST

K-12 learning has always been about students, families and educators. Edsby brings K-12 communities into the future... wherever people happen to be.

Edsby is a social learning environment for K-12. Empower your educators and families to build capacity and support student learning in ways you didn't know were possible.

Experience a full-featured system putting the connections between people, not just documents, at the center of student learning—in-class, hybrid & online.

"I love how easy it is to communicate with students and parents in Edsby and that it's organized by the classes I teach."

Alyssa Pursel, Teacher / Greater Essex County District School Board, 35,000 students and 4,500 staff on Edsby

 **The K-12 platform of the future, today.**

Use Edsby for...

Learning Management

Broadest set of learning management capabilities in a single app made just for K-12

Assessment & Reporting

Next generation capture of learning, sharing with parents and reporting per regional requirements

Analytics

Real time insights shared securely with K-12 educators to enable real time actions

Student Well-Being

Research-based technologies and strategies for the emotional health of K-12 students and teachers

Social collaboration features

Secure Communication | Community & Family Engagement | Groups | News | Content Editor | Notifications | Profiles

Integration powered by

Two-Way Connections With Legacy Systems | Single Sign-On | Data Consolidation | Access Control | Learning Record Store | App Framework | APIs

What sets Edsby apart

Designed specifically for K-12

Edsby was made for the assessments, parent communication, workflows and other unique aspects of K-12.

Other learning systems try to serve higher education and business as well. Edsby's K-12 focus shows.

Full Featured

No other learning platform in K-12 has the breadth of community, classroom management, assessment & reporting, intervention, parent engagement and other features of Edsby.

One integrated application

Edsby was built from day one as a single, well-designed system by a single engineering team. It wasn't pieced together from acquisitions like every other leading platform in K-12.

Edsby's Secret

It's constantly changing. And it's at the core of everything in K-12: a complex social graph of students, parents, teachers, courses and more. Only Edsby builds this database from a district or region's existing data, keeps it updated, and puts it at the heart of everything it does, making it actionable for educators.
