

THE FUTURE OF K-12 IS SOCIAL

Connect students, educators and parents using Edsby's social learning environment

Supporting the broad set of needs in K-12 education, Edsby's social learning platform prioritizes the connections between people—not just documents—and empowers educators and families to support student learning. Here's how.

Community Engagement

Picking up where systems like Google Classroom and Seesaw leave off, Edsby engages students, teachers and parents in a safe and monitored "walled garden."

KEY FEATURES

Social Classrooms
Seamless collaboration between students, educators, and parents

News
Distribute district and school updates in a consolidated feed

Groups
Provide safe, managed areas for PLCs, teams and clubs to collaborate

Confidential Messages
Connect with stakeholders through modern communications

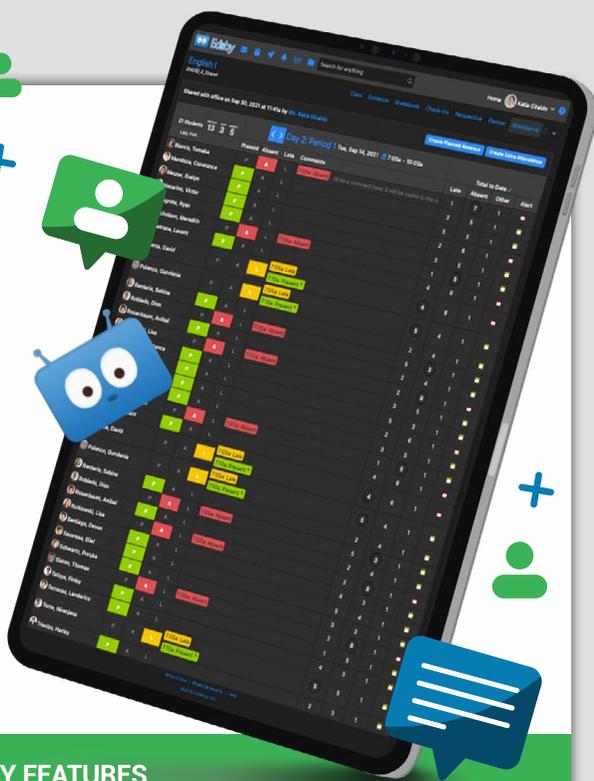

Just 54% of educators are satisfied with the group collaboration capabilities of their LMS

Nearly 2x as many Edsby users are satisfied with its group capabilities

Learning Management

Tailor-made for the evolving needs of learning management in K-12, Edsby includes all the features educators need to manage digital, in-class and project-based activities.

KEY FEATURES

Classroom Management
Everything needed to manage classes in person, remote or hybrid, incl. ability to "go live" online at any time

Curriculum Design & Management
Author & distribute content scope and sequence, hone with other teachers & easily re-use

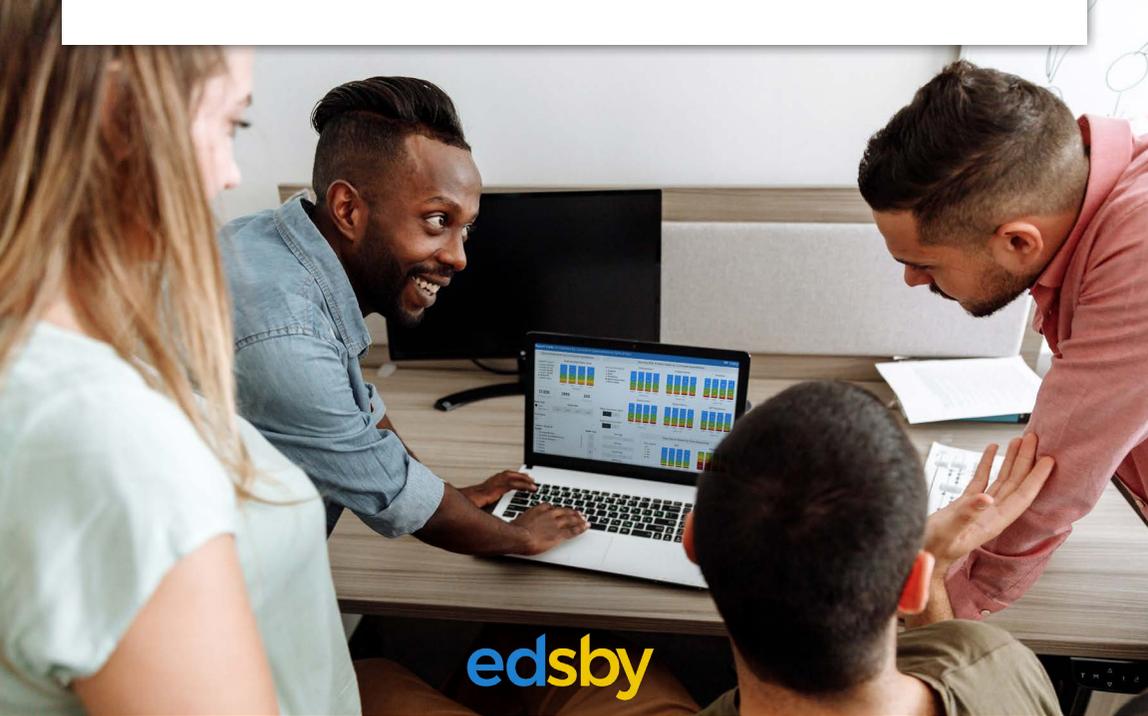

Parent Access
Parents get their own logins to see what's happening in class, following as little or much as they want

Features you didn't know could be in an LMS
Like attendance, report cards, printable seating plans and rosters

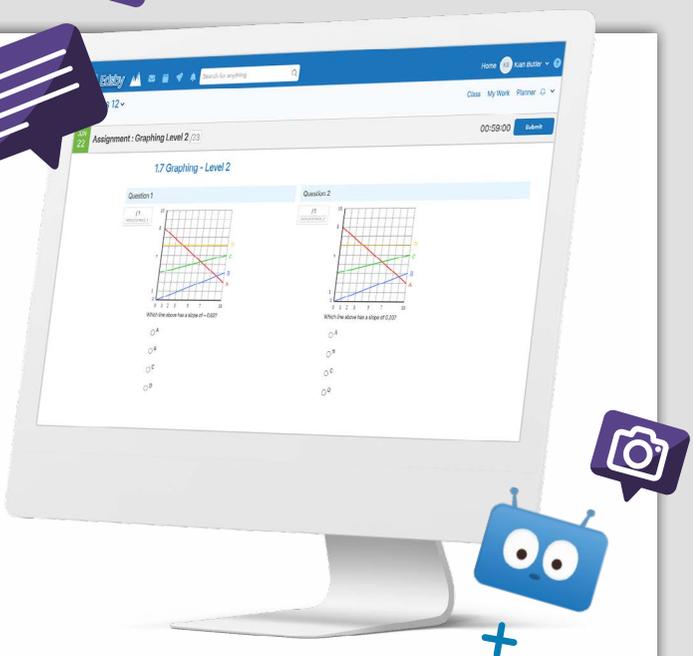

Best Learning Management System

2022 & 2021 EdTech Awards, EdTech Digest

Assessment & Reporting

Next generation features to help educators capture learning evidence, share with parents and report progress.

KEY FEATURES

Advanced Gradebook
Accept submissions electronically, record assessments, and share results instantly with students and parents

Learning Evidence
Record student learning with photos, videos and other media to capture progress, assess growth and ensure mastery

Standards-based
Tie assessments, observations, learning evidence and more to state, provincial or federal standards

70+ awards and distinctions

compared to conventional LMS platforms, including Canvas, Schoology and Google Classroom

Analytics

Valuable insights that support data-driven action.

KEY FEATURES

Find Outliers
Breakthrough learning analytics capabilities make it easy for educators to spot trends and identify at-risk students

Dynamic Insights
Instead of requiring academic data to be imported, Edsby provides near real-time insight

Modern Interface
Edsby's analytics use Microsoft's Power BI visualization system to power dynamic, interactive dashboards

Edsby users report 22% higher satisfaction

than users of other systems—including Canvas, Schoology and Google Classroom

Student Well-Being

Research-based technologies and strategies to support the emotional health of students.

KEY FEATURES

Emotional Check-Ins
Quick and easy poll feature enables students to share how they're feeling

Panorama
A 360° view of every student, including their academic history, parent information, attendance records and more

Monitor Groups
Manage students needing extra support so educators and counselors can collaborate on strategies for success

Designed in partnership with a team of academic advisors

The Goldie Hawn Foundation

WHY EDSBY?

Built for K-12
Where other systems try to service corporate and higher learning audiences, Edsby is designed specifically for K-12 education

Safe & Secure
24/7 onsite staffing at data centers and a "pass" privacy rating of 87% from Common Sense Media – one of the highest scores of any digital learning platform

Comprehensive
Edsby includes the features schools and districts need to support K-12 students today, all in a single, modern system

MORE THAN AN LMS OR SIS—A FULL PLATFORM FOR YOUR WHOLE K-12 COMMUNITY

Since 2010, Edsby has been on a mission to improve K-12 teaching and learning around the world with next generation social technologies and iron-clad student data stewardship.

Contact us to see how Edsby can serve your school, district or region.
